

Else – display error and re-enter status.

Calculate attendance percentage: $\text{attendance percentage} = \frac{\text{present count}}{\text{number of students}} * 100$.

Classify attendance performance:

80 – 100% - Good class attendance

60 – 79% - Moderate class attendance

Below 60% - poor class attendance

Display attendance summary: Show totals, percentage, and classification.

Save report: Write the summary into attendance report. txt.

End the program.
